Product details

XT24

The specialist with staying power for the cutting of aluminium and other NF-metals, it is an out-and-out high-power cutting disc. Its special filling materials prevent clogging of the cutting disc and thus guarantees an efficient, precise cut with a long lifetime. The narrow width of the disc reduces the amount of dust that is produced.

Material:
- Non-ferrous metals
- Brass
- metal
- Al-alloy

Machines:
- Free-hand angle grinder

Advantages:
- Low development of burrs
- High cutting speed Bearing
- Long lifetime
- Cool cut
- Easy cutting
- No clogging

Hardness: ●●○○○

Lifetime: ●●●●○○

Stock removal: ●●●●●●
